

K-love Radio has been very important in my life. It has uplifted my spirit while I drive, and made me a better driver. I can see many of my friends enjoying K-love as well. I think that K-love provides an excellent service to my community as well as helping people with their phone help line. It is my opinion that K-love should not be displaced by an LPFM broadcaster. That would most likely be a loss to our community. K-love provides radio that can be listened by any family, even children. There are many stations that have DJ's that are vulgar and not proper for children. K-LOVE is in the public interest and should be allowed to remain broadcasting.
